

SOMERSET COLLEGE

“With Tenet’s help we changed insurer and made substantial savings on premiums AND improvements in cover”

Liz Hurst - Vice Principal Finance and Resources

Tenet undertook a review of Wakefield College insurance covers and carried out a tender process on the College’s behalf. The result was the College moved from its existing brokers to a new carrier achieving both substantial premium savings and improvements in cover.

Tendering expertise

We found Tenet’s input invaluable, as they were able to apply a level of technical expertise to the process that was unavailable within the College e.g. production of a meaningful tender document and to evaluate and report on the tenders received.

Subsequently, Tenet undertook the same process for Somerset College again resulting in the College changing its insurance provider and achieving major savings in premium and improvements in cover and levels of service.

Best value

I would recommend Tenet to any educational establishment looking to achieve best value by undertaking a tender for its insurances.
