

BILBOROUGH SIXTH FORM COLLEGE

“Tenet’s extensive knowledge of the education sector made them the logical choice for our risk management needs”

Steve Worthington – Vice Principal Finance and Resources

Tenet recently produced comprehensive business continuity and emergency planning policies for our College. We have been delighted with the depth of knowledge demonstrated by Tenet staff. The plans we have implemented with the support of Tenet, are detailed and should disaster strike, the policies will guide us through, so that both staff and students are led to safety.

Business continuity plan

We are confident that our business continuity plan will provide us with the information we need to prevent any long

term interruption to College business. We have plans in place to guarantee that suppliers are contacted as a matter of urgency and that our IT back up procedures are robust, enabling us to continue our operations with the minimum interruption.

Risk management expertise

It’s clear Tenet has considerable knowledge of risk management and what it means to Colleges. They are completely trustworthy and provide a professional and supportive service. It has been an excellent partnership and one we will continue with enthusiasm.
